

# Door Flush Door

Rw up to 43 dB

Any colour from the RAL palette

Hidden frame

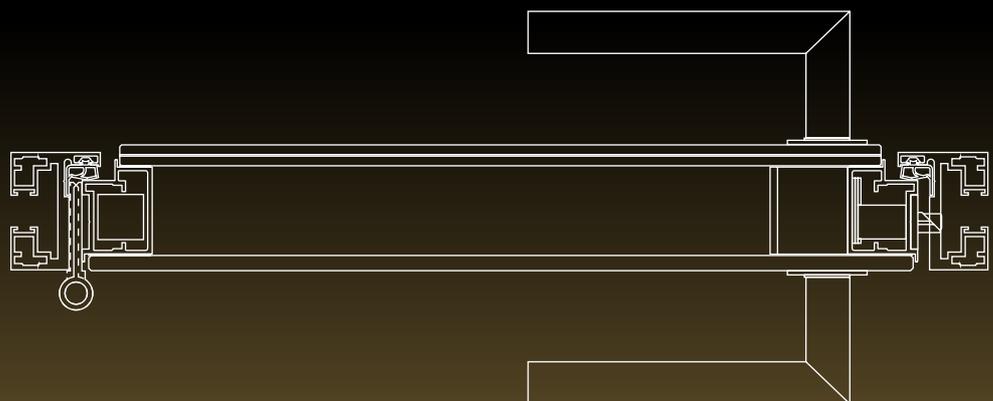

The FLUSH DOORS are the optimal solution for a secure and comfortable environment. The product features a concealed frame to which 6 mm or 8 mm toughened glass is bonded, offering a combination of aesthetic appeal and acoustic comfort (Rw 36 dB - 43 dB). The aluminium frame (53 mm, 55 mm, 78 mm or 100 mm deep) and concealed drop seals ensure a tight seal. Painting the profiles in any RAL colour allows full customisation, while the door closer and access control system enhance operational security.

Single or double leaf doors

**Additionally, the FLUSH DOORS are available in a smoke-proof version.**
