

System SILENCE

Rw up to 49 dB

Single or double-
glazed system

Profiles in any
RAL colour

The SILENCE system offers the unique advantage of allowing customers to choose between single and double glazing, providing the flexibility to adapt to any layout configuration and complex space arrangements. The SILENCE system is the ideal choice for projects where acoustic insulation and modern design are a priority. Its aluminium profiles, available in 25 mm or 30 mm height and 78 mm depth with concealed seals, have been precisely tailored to create a robust and stylish partition wall. The system offers excellent acoustic insulation (Rw 40 dB* - 49 dB) and is ideal for projects where acoustic insulation and modern design are a priority.

Double or single-glazed system

Structural profiles 25 or 30 mm high and 78 mm wide in any colour from the RAL palette

Maximum height 3500 mm

Filled with laminated or tempered safety glass 10 mm or 12 mm thick
